Textiles Get A Feel For Fabric Online

Description

Interested in making clothes or getting creative with fabrics then this will give you a great start. Covering all the basics in understanding how to drape and work with fabrics all ready for the next stage with your sewing and textile projects.

What Qualification/level is this course?

This online course is for personal development and does not lead to a qualification

Who is the course for?

Anyone who would like to get started with sewing

What can I expect to learn?

By the end of this course you will be able to:
•gain knowledge of the different terminology used relating to how fabric is constructed.
•recognise how important it is to lay the pattern pieces onto the fabric correctly.
•know how to locate the bias on the fabric and how the bias characteristics are used in specific areas of the garment.

How will I learn?

You will be working independently at a time and place that suits your needs. You will be accessing a range of learning materials and resources from our online learning site. The session will be interactive and available to engage with multiple times to equip participants with a range of tools for immediate application in their practical projects.

How will I know how well I am doing?

There is a self-assessment quiz included within the course for you to gauge your achievement.

Will I have to do any work at home?

As a single session online course there is no requirement for additional homework, however further practise of the techniques delivered will increase your skills. There are also further reading suggestions made if you wish to broaden your understanding of this subject.
What will I need to provide?

You will need to have access to a computer, laptop or other device that can utilise video and sound files to be able to access the course.

Are there any other costs?

No. Reference will be made to a range of supporting texts which learners may wish to access for independent study however these are not essential to the programme.
